## **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Note that, Applicant's amendments and Applicant's arguments are sufficient to place the instant claims in condition for allowance. Of the references of record, the most pertinent are EP 1,020,513 and WO98/49259. '513 teaches a laundry article effective for inhibiting transfer or extraneous dyes and soil to articles in a wash liquor said laundry article comprising a support matrix and a functionalized polyamine attached to or entrapped in the support matrix. The functionalized polyamine comprises the reaction product of (A) a cyano-or guanidine containing compound and (B) a polyamine prepared from at least one monomeric amine. See Abstract.

'259 teaches a detergent composition having excellent colour care properties when used to launder coluored fabrics. See Abstract.

However, neither reference teaches a non-cationic polymeric amine comprising vinyl imidazole which is fixably adhered to an insoluble substrate as recited by the instant claims.

None of the references or record, alone or in combination, teach or suggest a laundry additive article comprising an insoluble substrate, a dye absorber comprising a substantially insoluble non-cationic polymeric amine comprising vinyl imidazole fixably adhered to said substrate, and the other requisite components of the composition in the requisite proportions as recited by the instant claims. Accordingly, since the prior art fails to teach or suggest such a laundry additive article as recited by the instant claims, the instant claims are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
